

We Make It Happen

www.spectrumtechnfab.com

Spectrum Tech N Fab was established by team of young & energetic engineers

Mr. Saurabh Singhvi

B.E - Chemicals

Mumbai University having a ten plus years of industrial experience.

Mr. Gaurav Singhvi

B.E - Automobiles

MLS University having good experience of automotive & mechanical filed.

Mr. Nikhil Chaplot

B. Tech - Mechanical

Sir Padampat Singhanian University having good command on latest technology in engineering field.

As one of metal fabricators, SPECTRUM delivers quality products, services and metalworking technologies to the industries & domestic field.

Expanding our capabilities and investing in state-of-the-art equipment and technology keeps us on the cutting edge and creates a competitive advantage for our customers.

In business for engineering passion, SPECTRUM is a preferred supplier of:

Metal supply, fabrications and services that push the limits of thickness, scale and precision Materials processing.

Materials processing

Components for all kind of industries, Chemicals, Mines & Mineral, Fertilizers Etc.

Stainless steel and exotic alloy fabrication for corrosive environments.

Various PEB (Pre Engineering Building) with complete structural design by experts.

SPECTRUM is more than just a Metal-processing service center providing materials, fabrication, component manufacturing and assemblies.

Our Vision

Our passion to drive innovation inspires our team members to deliver best-in-class solutions and exceptional service to a wide range of industrial manufacturers & Domestic areas. We invest in customer reliance by living a second-to-none commitment to operational excellence, quality and service.

What We Can Do For You :

A Metal Fabrications: The building of metal structures by cutting, bending, and assembling processes is called a Metal Fabrication In this section we can do

- *Structure Design & Fabrication - Industrial Shed, Warehouse - Traditional or PEB (Pre Engineering Building)*
- *Metal Front Gate For Industries & Bungalows (Manual & Automatic)*
- *Building Grills or Railing & Frames*
- *All Kind Of Metal Maintenance Work*

B Engineering Job : Designing an object or part with complete engineering calculation & prescribe dimension is called a Engineering job- In this section we can do

- *Components of machineries*
- *Pressure hoses*
- *Various shafts etc.*

C Plant & Machinery: Various plant & machinery is required in different segment of industries. In this section we can do

- *EOT for different capacity 1 ton to 20 ton for warehouse, industries etc.*
- *Edge cutting machine for stone industries.*
- *Gantry crane for different capacity 1 ton to 100 ton.*

D Erection & Certification: Assemble the structure component in line to form complete uniform setup , with approved certificate of engineering calculation. In this section we can do

- *Erection of different sheds traditional or PEB as per design.*
- *Erection of different industrial components in plants*
- *Provide Certification of different PEB & machinery.*

E Engineering Consultancy: We at SPECTRUM provides complete engineering consultancy for your industrial cum domestic project with complete engineering inputs for excellence performance of your dream project.

- *Understand the needs of clients.*
- *Giving inputs by technical and engineering methods.*
- *Providing the proper engineering solutions.*

Advanced capabilities

PEB. WITH SOLAR PANELS

VARIOUS PURPOSE PEB.

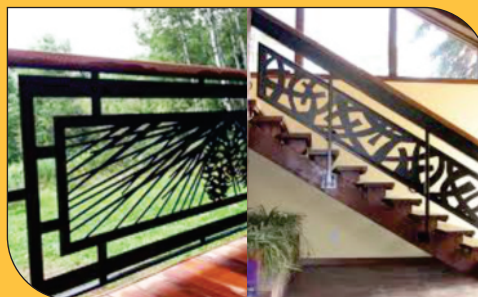

AUTOMATIC DESIGNER GATES

EOT & GANTRY

KIOSK / MOBILE RESTAURANT

DESIGNER RAILING & GRILL
